Supplemental Type Certificate

Number SR09423RC

This certificate issued to: REB Technologies, Inc.
1500 Brown Trail
Bedford, TX  76022

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 27 of the Federal Aviation Regulations.

Original Product – Type Certificate Number: H2SW

Make: Bell Helicopter Textron Canada Limited
Model: 407

Description of Type Design Change:

(See continuation Sheet 3 of 3)

Limitations and Conditions:
Installation of NVG compatible interior lighting system does not include or imply approval for flight operations with NVGs. The operator must receive a determination from their civil aviation authority if an approval to operate with NVGs is required. Any subsequent deviation to the cockpit/cabin configuration specified in the type design of this STC may affect the compatibility of

(See continuation Sheet 3 of 3)

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, and revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: August 30, 2004
Date of issuance: October 12, 2004
Date reissued: March 4, 2005; July 21, 2014
Date amended:

By direction of the Administrator

Signature

Scott A. Horn
Title  Manager, Rotorcraft Certification Office, Southwest Region

Any alteration of this certificate is punishable by a fine of not exceeding $1,000, or imprisonment not exceeding 3 years, or both. This certificate may be transferred or made available to third persons by licensing agreements in accordance with 14 CFR 21.47. Possession of this Supplemental Type Certificate (STC) document by persons other than the STC holder does not constitute rights to the design data nor to alter an aircraft, aircraft engine, or propeller. The STC’s supporting documentation (drawings, instructions, specifications, flight manual supplements, etc.) is the property of the STC holder. An STC holder who allows a person to use the STC to alter an aircraft, aircraft engine, or propeller must provide that person with written permission acceptable to the FAA. (Ref. 14 CFR 21.120).
TRANSFER ENDORSEMENT

Number: SR09423RC
Date of Issuance: October 12, 2004
Reissue Date: July 21, 2014

Description of Type Design Change (Continued):
Instructions for Continued Airworthiness (ICA), REB Technologies, Inc. Document No. 98020407-ICA, Rev. C, dated June 28, 2013, or later FAA approved revision is required.

Limitations and Conditions (Continued):
The NVIS and will require a re-evaluation for NVIS cockpit and NVG compatibility. The aircraft is not certificated for NVG operations until the evaluation is completed. Once the aircraft is modified with this STC, any future modification to the aircraft may also affect the compatibility with NVG and may require a re-evaluation by the FAA Aircraft Certification Office. The installer must determine whether this design change is compatible with previously approved modifications. If the holder agrees to permit another person to use this certificate to alter a product, the holder must give the other person written evidence of that permission.
